SAVE AT CLOSING

–$500

Typical savings at closing on a $500,000 Rhode Island purchase.* Less cash your buyer brings to the table — and the savings grow with the price.

WHO CLOSES YOUR FILE

One dedicated officer

One closing officer owns your file from title order to funding. Not a queue — the same person, start to finish.

Reachable in hours

Direct phone and email, with replies in under two hours during business hours. No bots, no offshore call centers.

Nothing hidden

Live status shows every milestone and who it's waiting on. You never call just to ask where things stand.

Title ordered — Search complete — **Clearing to close** — Docs & signing — Funded & recorded

Live on every file — for you and your buyer.

WHY IT COSTS LESS

We automated the paperwork — not the people.

Software handles the search, document prep, and processing that traditional title companies bill as separate fees — so that layer of the bill is gone, not discounted. A licensed closing officer still reviews and closes every file. Lower fees are the price, not a promotion.

*Rhode Island purchase examples (Providence-area pricing at 80% LTV), not a quote or guarantee. "Market Low" is the low end of our estimated typical local price range. Savings are measured against that figure and exclude title insurance premiums and government charges.

BetterClose is a DBA of First National Title & Escrow LLC. Estimates are preliminary. Final charges and any savings depend on the property, loan, required services and comparison quote. Service and underwriter availability vary by state and transaction, subject to applicable licensing and lender requirements. Coverage is governed by the issued title insurance policy. Attorney involvement does not by itself establish representation of the buyer or borrower.

Before sending funds, independently verify payment instructions with your closing team using a known, trusted phone number.
